Statutory Provisions

Planning and Development Act, 2000 (as amended)

In order to assess this proposal, regard has to be had to the *Planning and Development Act 2000, as amended*.

S.3.(1) In this Act, "development" means, except where the context otherwise requires, **the carrying out of any works on, in, over or under land** or the making of any material change in the use of any structures or other land.

'Works' are defined in Section 2 of the *Planning and Development Act 2000*, as amended as follows:

"works" includes any act or operation of construction, excavation, demolition, extension, alteration, repair or renewal and, in relation to a protected structure or proposed protected structure, includes any act or operation involving the application or removal of plaster, paint, wallpaper, tiles or other material to or from the surfaces of the interior or exterior of a structure.

Section 4(1) (i) of the *Planning and Development Act 2000*, as amended states the following shall be exempted development:

development consisting of the thinning, felling or replanting of trees, forests or woodlands or works ancillary to that development, but not including the replacement of broadleaf high forest by conifer species;

Environmental Impact Assessment & Appropriate Assessment

Section 4 (4) states

Notwithstanding paragraph (i) of subsection 1 and any regulation under subsection 2 development shall not be exempted development of an Environmental Impact assessment or an appropriate assessment of the development is required.

Section (4 A) states

Notwithstanding subsection 4 the Minister may make regulations prescribing development or any class of development that is:

(a) authorised, or required to be authorised by or under any statute (other than this Act) whether by means of a licence, consent, approval or otherwise, and

(b) as respects which an environmental impact assessment or an appropriate assessment is required,

to be exempted development.]

Planning & Development Regulations, 2001, as amended

Article 6 refers to Exempted Development and states that subject to Article 9, development of a class specified in column 1 of Part 1 of Schedule 2 shall be exempted development for the purposes of the Act, provided that such development complies with

the conditions and limitations specified in column 2 of the said Part 1 opposite the mention of that class in the said column 1.

Part 3 Exempted Development- Rural- Article 6

Class 16

The replacement of broadleaf high forest by conifer species.

Conditions and limitations

The area involved shall be less than 10 ha.

Planning and Development Regulations 2001-2021 – Article 8F:

8F. Development (other than the replacement of broadleaf high forest by conifer species) that is licensed or approved under section 6 of the Forestry Act 2014 (No. 31 of 2014) and that consists of –

- (a) the thinning, felling or replanting of trees, forests or woodlands,*
- (b) works ancillary thereto,*

shall be exempted development.

Assessment

Basis of Referral

The applicant is seeking a Section 5 Declaration as to whether the clearing the present area of failed ash trees to progress replanting of 85% coniferous trees and 15% broadleaf trees is considered development and if so, is it exempted development.

Notwithstanding the provisions of Section 4 (4) of the Act and Article 8 F of the Planning and Development Regulations, Section (4A) makes provision for the Minister to make regulations prescribing development or any class of development that is authorised, or required to be authorised by or under any statute (other than this Act) whether by means of a licence, consent, approval or otherwise, and as respects which an environmental impact assessment or an appropriate assessment is required to be exempted development for the purposes of the Planning Acts.

In this instance Part 3 Exempted Development- Rural- Article 6 Class 16 states that the replacement of broadleaf high forest by conifer species is exempted development provided the area involved shall be less than 10ha. The subject referral identifies 2 separate plots where the replanting will occur:

- Plot 1 – 0.5ha
- Plot 2 – 0.2ha
- Plot 3 – 0.8ha
- Plot 4 – 1.12ha

The total area therefore is 2.62ha.

In terms of the Article 9 de-exemptions, I note that the site has an existing access and no new access is being created.

In terms of Appropriate Assessment, it is noted that the proposed planting will require a licence (under the Forestry Act 2014) and the question of Environmental Impact Assessment and Appropriate Assessment in respect of the proposed development is dealt with through the Forestry Licence process. In any event I do not consider based on the details as submitted that an AA is required in this instance.

Conclusion

Having regard to the information provided, it is considered that clearing the present areas of failed ash trees to progress replanting of 85% coniferous trees and 15% broadleaf trees under the Planning Act constitutes both 'works' and 'development'. Regard has also been had to Section (4A) (Planning and Development Act 2000 and class 16 (Part 3 Exempted Development- Rural- Article 6) of the Regulations made there under the replacement of broadleaf high forest by conifer species is exempted development and the area is less than 10 ha.

Recommendation

The following questions have been referred to the Planning Authority:

Whether the removal of 2.62ha of semi mature ash which has been infected with Ash Die Back (Charlara) and the replanting of the ground with Sitka spruce (85%) and broadleaves (15%) is considered development, and if so is it exempted development?

The Planning Authority in considering this referral had regard to:

- (a) Sections 2, 3 and 4 (1) (i) and (4A) of the Planning and Development Act, 2000, as amended,
- (b) The provisions of part 3 Exempted Development –Rural- Article 6. Class 16 and associated limitations and conditions,
- (c) The extent of the plantation being 2.62 ha as indicated in submitted documents from the referrer.

And whereas Clare County Council (Planning Authority) has concluded:

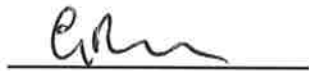

- (a) That the removal of ash trees from a diseased ash plantation and the replanting with Sitka Spruce and Broadleaves, constitutes "works" which come within the scope of section 2 (1) of the Planning and Development Act 2000, as amended,
- (b) the said works constitute "development" which comes within the scope of section 3 (1) of the Planning and Development Act 2000, as amended,
- (c) the said development of clearing the present area of ash trees to progress replanting of 85% coniferous trees and 15% broadleaf trees, complies with the provisions of Class 16 of Part 3, Exempted Development (Rural) of the Planning

and Development Regulations 2001 as amended, and the conditions and limitations therein.

Now therefore Clare County Council (Planning Authority), hereby decides that the removal of 2.62ha of semi mature ash which has been infected with Ash Die Back (Charlara) and the replanting of the ground with Sitka spruce (85%) and broadleaves (15%) is considered development and development which is exempted development.
