Background to Referral

This Referral under Section 5(1) of the Planning and Development Act 2000 (as amended) has been made by Joseph Burke. He has stated that he is the owner of the lands to which this referral relates.

The applicant is seeking a Section 5 Declaration as to whether the removal of a diseased ash tree plantation and the replacement of same with Sitka Spruce and Japanese Larch is or is not development and is or is not exempted development.

The site has an area of 5.42ha.

Statutory Provisions

Planning and Development Act, 2000 (as amended)

In order to assess this proposal, regard has to be had to the *Planning and Development Act 2000, as amended*.

S.3.(1) In this Act, "development" means, except where the context otherwise requires, the carrying out of any works on, in, over or under land or the making of any material change in the use of any structures or other land.

'Works' are defined in Section 2 of the *Planning and Development Act 2000, as amended* as follows:

"works" includes any act or operation of construction, excavation, demolition, extension, alteration, repair or renewal and, in relation to a protected structure or proposed protected structure, includes any act or operation involving the application or removal of plaster, paint, wallpaper, tiles or other material to or from the surfaces of the interior or exterior of a structure.

Section 4(1)(i) of the Planning and Development Act 2000, as amended

The following shall be exempted development:

development consisting of the thinning, felling or replanting of trees, forests or woodlands or works ancillary to that development, but not including the replacement of broadleaf high forest by conifer species;

Section 4(4) of the Planning and Development Act 2000 (as amended):

Notwithstanding paragraph (i) of subsection 1 and any regulation under subsection 2 development shall not be exempted development of an Environmental Impact assessment or an appropriate assessment of the development is required.

Section (4A) states of the Planning and Development Act 2000 (as amended)

Notwithstanding subsection 4 the Minister may make regulations prescribing development or any class of development that is:

- (a) authorised, or required to be authorised by or under any statute (other than this Act) whether by means of a licence, consent, approval or otherwise, and
 - (b) as respects which an environmental impact assessment or an appropriate assessment is required,
- to be exempted development.]

Planning & Development Regulations, 2001, as amended

Article 6 refers to Exempted Development and states that subject to Article 9, development of a class specified in column 1 of Part 1 of Schedule 2 shall be exempted development for the purposes of the Act, provided that such development complies with the conditions and limitations specified in column 2 of the said Part 1 opposite the mention of that class in the said column 1.

Article 8F of Planning and Development Regulations 2001 (as amended)

Development (other than the replacement of broadleaf high forest by conifer species) that is licensed or approved under section 6 of the Forestry Act 2014 (No. 31 of 2014) and that consists of –

- (a) the thinning, felling or replanting of trees, forests or woodlands,
 - (b) works ancillary thereto,
- shall be exempted development.

Planning and Development Regulations 2001 (as amended) Schedule 2, Part 3, Class 16

The replacement of broadleaf high forest by conifer species.

Conditions and limitations:

The area involved shall be less than 10 ha.

Under Article 9 (1) of the same Regulations, *development to which Article 6 relates shall not be exempted development for the purposes of the Act:*

- (a) *if the carrying out of such development would –*

- (i) *contravene a condition attached to a permission under the Act or be inconsistent with any use specified in a permission under the Act*

(ii) consist of or compromise the formation, laying out or material widening of a means of access to a public road the surfaced carriageway of which exceeds 4 metres in width,

(iii) endanger public safety by reason of traffic hazard or obstruction of road users,

(iv) except in the case of a porch to which class 7 specified in column 1 of Part 1 of Schedule 2 applies and which complies with the conditions and limitations specified in column 2 of the said Part 1 opposite the mention of that class in the said column 1, comprise the construction, erection, extension or renewal of a building on any street so as to bring forward the building, or any part of the building, beyond the front wall of the building on either side thereof or beyond a line determined as the building line in a development plan for the area or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan,

(v) consist of or comprise the carrying out under a public road of works other than a connection to a wired broadcast relay service, sewer, water main, gas main or electricity supply line or cable, or any works to which class 25, 26 or 31 (a) specified in column 1 of Part 1 of Schedule 2 applies,

(vi) interfere with the character of a landscape, or a view or prospect of special amenity value or special interest, the preservation of which is an objective of a development plan for the area in which the development is proposed or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan.

(vii) consist of or comprise the excavation, alteration or demolition (other than peat extraction) of places, caves, sites, features or other objects of archaeological, geological, historical, scientific or ecological interest, the preservation, conservation or protection of which is an objective of a development plan or local area plan for the area in which the development is proposed or, pending the variation of a development plan or local area plan, or the making of a new development plan or local area plan, in the draft variation of the development plan or the local area plan or the draft development plan or draft local area plan,

(viiA) consist of or comprise the excavation, alteration or demolition of any archaeological monument included in the Record of Monuments and Places, pursuant to section 12(1) of the National Monuments (Amendment) Act 1994, save that this provision shall not apply to any excavation or any works, pursuant to and in accordance with a consent granted under section 14 or a licence granted under section 26 of the National Monuments Act 1930 (No. 2 of 1930) as amended,

(viiB) comprise development in relation to which a planning authority or An Bord Pleanála is the competent authority in relation to appropriate assessment and the development would require an appropriate assessment because it would be likely to have a significant effect on the integrity of a European site,

(viiC) consist of or comprise development which would be likely to have an adverse impact on an area designated as a natural heritage area by order made under section 18 of the Wildlife (Amendment) Act 2000."

(viii) consist of or comprise the extension, alteration, repair or renewal of an unauthorised structure or a structure the use of which is an unauthorised use,

(ix) consist of the demolition or such alteration of a building or other structure as would preclude or restrict the continuance of an existing use of a building or other structure where it is an objective of the planning authority to ensure that the building or other structure would remain available for such use and such objective has been specified in a development plan for the area or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan,

(x) consist of the fencing or enclosure of any land habitually open to or used by the public during the 10 years preceding such fencing or enclosure for recreational purposes or as a means of access to any seashore, mountain, lakeshore, riverbank or other place of natural beauty or recreational utility,

(xi) obstruct any public right of way,

(xii) further to the provisions of section 82 of the Act, consist of or comprise the carrying out of works to the exterior of a structure, where the structure concerned is located within an architectural conservation area or an area specified as an architectural conservation area in a development plan for the area or, pending the variation

of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan and the development would materially affect the character of the area.

Assessment

Basis of Referral

The applicant is seeking a Section 5 Declaration as to whether the removal of a diseased ash tree plantation and the replacement of same with Sitka Spruce and Japanese Larch at Barbane, Broadford is or is not development and is or is not exempted development.

Notwithstanding the provisions of Section 4(4) of the Act and Article 8 F of the Planning and Development Regulations, Section (4A) makes provision for the Minister to make regulations prescribing development or any class of development that is authorised, or required to be authorised by or under any statute (other than this Act) whether by means of a licence, consent, approval or otherwise, and as respects which an environmental impact assessment or an appropriate assessment is required to be exempted development for the purposes of the Planning Acts. In this instance Part 3 Exempted Development- Rural- Article 6, Class 16 states that the replacement of broadleaf high forest by conifer species is exempted development provided the area involved shall be less than 10 ha.

The total area proposed for replanting under this referral is 5.42ha .

In this regard it is noted that the proposed planting will require a licence (under the Forestry Act 2014) and the question of Environmental Impact Assessment and Appropriate Assessment in respect of the proposed development is dealt with through the Forestry Licence process.

Conclusion

Having regard to the information provided, it is considered that the removal of a diseased ash tree plantation and the replacement of same with Sitka Spruce and Japanese Larch at Barbane, Broadford, Co. Clare constitutes both 'works' and 'development'. Regard has also been had to Section (4A) (Planning and Development Act 2000) and Class 16 (Part 3 Exempted Development- Rural- Article 6) of the Regulations made thereunder, which states that the replacement of broadleaf high forest by conifer species is exempted development when the area is less than 10 ha.

Recommendation

The following question has been referred to the Planning Authority:

Whether the removal of the diseased ash tree plantation and the replacement of same with Sitka Spruce and Japanese Larch at Barbane, Broadford, Co. Clare is considered to be development and if so, is it exempted development.

The Planning Authority in considering this referral had regard to:

- (a) Sections 2, 3 and 4 of the Planning and Development Act, 2000, as amended;
- (b) Articles 6 and 9 of the Planning and Development Regulations 2001, as amended;
- (c) Class 16 of Schedule 2, Part 3 of the Planning and Development Regulations 2001, as amended;
- (d) Article 8F of the Planning and Development Regulations 2001, as amended
- (e) The works as indicated in submitted documents from the referrer.

And whereas Clare County Council (Planning Authority) has concluded:

- (a) The removal of the diseased ash tree plantation and the replacement of same with Sitka Spruce and Japanese Larch constitutes "works" which come within the scope of section 2(1) of the Planning and Development Act 2000, as amended;

- (b) The said works constitute "development" which comes within the scope of section 3(1) of the Planning and Development Act 2000, as amended;
- (c) the said removal of the diseased ash tree plantation and the replacement of same with Sitka Spruce and Japanese Larch is exempted development by virtue of Schedule 2, Part 3, Class 16 of the Planning and Development Regulations 2000 (as amended) and Article 8F of the Planning and Development Regulations 2000 (as amended)

Now therefore Clare County Council (Planning Authority) hereby decides that the removal of the diseased ash tree plantation and the replacement of same with Sitka Spruce and Japanese Larch at Barbane, Broadford, Co. Clare is development and is exempted development.

Screening for Appropriate Assessment & Determination

1. Table 1 to be filled in for all development applications.
2. Where proposed development is within a European site(s) site, go directly to table 3.
3. For all other development proposals, fill in table 2, and if required, table 3.
4. A Habitats Directive Screening Statement should be sought for all developments regardless of location which require an EIS

Table 1: Project Details

Planning File Reference	R22-31
Applicant Name	Joseph Burke
Development Location	at Barbane, Broadford, Co Clare
Application accompanied by an EIS	No
Application accompanied by an NIS	No
Description of the project (To include a site location map):	
<p>The removal of a diseased ash tree plantation (5.42ha) and the replacement of same with Sitka Spruce and Japanese Larch</p> 	

Table 2: Identification of European sites which may be impacted by the proposed development.

This section identifies the European Sites within the likely zone of impact of the plan or project. For plans an initial 15km zone of influence (NPWS-DAHG)¹ is recommended. For projects, the distance could be much less than 15km, and in some cases less than 100m, but this must be evaluated on a case-by-case basis.

Having regard to the nature, scale and location of the proposed development, the likely zone of impact is no greater than 3km.

Table 2 (a): European Sites within 3km of Applicant Site

European Sites ²	Qualifying Interests (QIs)/Special Conservation Interests (SCIs) and conservation objectives (either generic or detailed) (available on www.npws.ie/protectedsites) or through Intranet.	Distance to Applicant Site (km)
Slieve Bernagh Bog SAC	<p><u>Annex I habitats:</u></p> <ul style="list-style-type: none"> Northern Atlantic wet heaths with <i>Erica tetralix</i> [4010] European dry heaths [4030] Blanket bogs (* if active bog) [7130] 	0.97km

1	Impacts on designated rivers, streams, lakes and fresh water dependant habitats and species.	Is the development in the catchment of or immediately upstream of a watercourse that has been designated as a European site?	No
2	Impacts on terrestrial habitats & species.	Is the development within 1km of a European site with terrestrial based habitats or species?	Yes -the site is less than 1km from the Slieve Bernagh Bog SAC
3	Impacts on designated marine habitats & species.	Is the development located within marine or intertidal areas and within 5 km of a European site whose qualifying habitats or species include the following: <i>Mudflats, sandflats, saltmarsh, shingle, reefs, sea cliffs</i>	No
4	Impacts on birds in SPAs	Is the development within 1km of a Special Protection Area	No
5	Indirect effects	<p>Is the development, in combination with other existing or proposed developments likely to impact on an adjacent European site?</p> <p>Is any emission from the development (including noise) likely to impact on an adjacent habitat or species?</p>	<p>No likely in-combination effects</p> <p>No likely emissions</p>

¹ European Sites that are more than 15km from the proposal may have to be considered. For example in the case of sites with water dependent habitats or species and where a proposal could affect water quality or quantity it may be necessary to consider the full extent of the upstream and/or downstream catchment.

² European Site details are available on <http://webgis.npws.ie/npwsviewer/> or maybe obtained from internal mapping systems.

Conclusion:

- If the answer to all of the above is *no*, significant impacts on European sites are unlikely. No further assessment is required; go directly to the conclusion statement.
- If the answer is *unknown* or *yes* proceed to Table 3 and refer to the relevant sections of Table 3.

Table 3: Identification of potential impacts.

2	Impacts on terrestrial habitats and species. <i>Please answer the following if the answer to question 2 in table 2 was yes.</i> <i>Does the development involve any of the following:</i>	
2a	Removal of or interference with habitat within the European site. This includes reduction in habitat area or fragmentation of habitat. Is the timing of this interference liable to impact on the nesting or breeding period of any protected species?	No – the site is downslope of the SAC and will not result in a reduction or fragmentation of habitats in same
2b	Construction of roads or other infrastructure on peat habitats within 1km of bog, marsh, fen or heath habitat within a European site	No
2c	Is the development liable to impact on water quality in the European site, or liable to give rise to any change in a key indicator of water quality, including salinity. If yes, is the site designated for any bird species or other plant species whose feeding ground or life cycle may be affected by changes in water quality?	No likely impact on water quality. The site is downslope of the SAC and the development will not have an impact on groundwater or surface water flows in the SAC
2d	Development within 1km of terrestrial European site of a scale or type which involves the production of an EIS.	No

Conclusion:

- If the answer to all of the above is *no*, significant impacts on European sites are unlikely. No further assessment is required; go directly to the conclusion statement.
- If the answer to any of the above is *yes*, or *unknown* effects on the European sites need to be assessed and a Natura Impact Statement will be required.

³ Appropriate Assessment is not required and therefore Planning permission may be granted at this stage subject to all other planning considerations. However, no material changes may be made to the proposed development after this conclusion has been reached as this would invalidate the findings of the screening exercise.

⁴ In accordance with S177U of the Planning and Development (Amendment) Act 2010, the applicant should be requested to submit an 'Appropriate Assessment Screening Matrix' completed by a suitably qualified ecologist, by way of Further Information. Following receipt of this information a new Appropriate Screening Report should be completed. The requested 'Appropriate Assessment Screening Matrix' should be in accordance with the template outlined in Annex 2, Figure 1 of the EU (2001) guidance document 'Assessment of plans and projects significantly affecting European Sites – Methodological guidance on the provisions of Article 6(3) and (4) of the Habitats Directive 92/43/EEC. This guidance document is available from http://ec.europa.eu/environment/nature/natura2000/management/docs/art6/natura_2000_assess_en.pdf

Alternatively, where other planning concerns arise the proposal could be refused planning permission.

⁵ The proposed development must either by refused planning permission or alternatively an 'Appropriate Assessment' (AA) should be carried out by the Planning Authority. In order to facilitate the preparation of an AA the applicant should be requested to submit a Natura Impact Statement (NIS) in accordance with S177 (T) of the Planning and Development (Amendment) Act 2010. However, in the case of an application to retain unauthorised development of land and where the authority decides that an 'appropriate assessment' should have been carried out prior to the commencement of development, the application is required to be invalidated by the Planning Authority as per S34 (12) of the Planning and Development (Amendment) Act 2010 and accordingly an NIS should not be requested in such instances.
