Is the building of a lean-to extension onto an existing agricultural slatted shed development and if so, is it exempted development?

A Chara,

I refer to your application received on 29th November 2022 under Section 5 of the Planning & Development Act 2000 (as amended) in relation to the above.

The Planning Authority has considered the matter and I attach herewith the Council's findings in this matter.

Where a declaration is issued by the Planning Authority, any person issued with a declaration, may on payment to an Bord Pleanála of the required fee, refer a declaration for review by An Bord Pleanála within 4 weeks of the date of the issuing of the declaration. Details on making such appeal are available on the Board's website at www.pleanala.ie

**CLARE COUNTY COUNCIL
SECTION 5 DECLARATION OF EXEMPTION APPLICATION
PLANNERS REPORT 1**

FILE REF:	R22-80
APPLICANT(S):	Kieran O'Neill
REFERENCE:	Whether the construction of a lean-to extension onto an existing agricultural slatted shed at Knockanalban, Mullagh, County Clare is not development and is or is not exempted development.
LOCATION:	Knockanalban, Mullagh, County Clare
DUE DATE:	22 nd November 2022 <i>O'Neill</i>

Site Location

The proposal site is located in the rural townland of Knockanalban and is approximately 600 metres south east of the boundary of the Crosses of Annagh Cluster. It is located to the west of the LT21141 local tertiary road and to the south of the LP2114 local primary road. The site is accessed via an existing agricultural access road. The site is immediately adjacent to an existing slatted shed. There is an existing derelict farm house and a shed to the south of the slatted shed. The main views towards the site are from the local roads to the north and west. When viewed from the north the site is located in an elevated position along the local skyline. It is viewed in the context of the adjacent farm buildings. The site is located within a Settled Landscape as per the Clare County Development Plan 2017-2023 (as varied).

Recent Planning History

Onsite

None.

North West

05-2073 – Refused - Thomas Hehir - to construct dwelling house and septic tank.

North East

22-434 – Granted - Brian Clune & Laura Dolan - to construct a dwelling house and garage, with effluent treatment system, new entrance from public road, and all associated site works.

Background to Referral

This Referral under Section 5(3)(a) of the Planning and Development Act 2000 (as amended) has been made by Kieran O'Neill who is the stated owner of the site.

Statutory Provisions

Planning and Development Act, 2000 (as amended)

In order to assess this proposal, regard has to be had to the *Planning and Development Act 2000, as amended*.

S.3.(1) In this Act, “development” means, except where the context otherwise requires, **the carrying out of any works on, in, over or under land** or the making of any material change in the use of any structures or other land.

‘Works’ are defined in Section 2 of the *Planning and Development Act 2000, as amended* as follows:

“works” includes any act or operation of construction, excavation, demolition, extension, alteration, repair or renewal and, in relation to a protected structure or proposed protected structure, includes any act or operation involving the application or removal of plaster, paint, wallpaper, tiles or other material to or from the surfaces of the interior or exterior of a structure.

Planning & Development Regulations, 2001, as amended

Article 6 refers to Exempted Development and states that subject to Article 9, development of a class specified in column 1 of Part 3 of Schedule 2 shall be exempted development for the purposes of the Act, provided that such development complies with the conditions and limitations specified in column 2 of the said Part 3 opposite the mention of that class in the said column 1.

Planning and Development Regulations 2001 (as amended) Schedule 2, Part 3, Class 8

Works consisting of the provision of roofless cubicles, open loose yards, self feed silo or silage areas, feeding aprons, assembly yards, milking parlours or structures for the making or storage of silage or any other structures of a similar character or description, having an aggregate gross floor space not exceeding 200 square metres, and any ancillary provision for effluent storage.

- 1. No such structure shall be used for any purpose other than the purpose of agriculture.*
- 2. The gross floor space of such structures together with any other such structures situated within the same farmyard complex or within 100 metres of that complex shall not exceed 300 square metres gross floor space in aggregate.*
- 3. Effluent storage facilities adequate to serve the structure having regard to its size, use and location shall be constructed in line with Department of Agriculture, Food and Rural Development and the Department of the Environment and Local Government requirements and shall have regard to the need to avoid water pollution.*

4. *No such structure shall be situated, and no effluent from such structure shall be stored, within 10 metres of any public road.*
5. *No such structure within 100 metres of any public road shall exceed 8 metres in height.*
6. *No such structure shall be situated, and no effluent from such structure shall be stored, within 100 metres of any house (other than the house of the person providing the structure) or other residential building or school, hospital, church or building used for public assembly, save with the consent in writing of the owner and, as may be appropriate, the occupier or person in charge thereof.*
7. *No unpainted metal sheeting shall be used for roofing or on the external finish of the structure.*

Planning and Development Regulations 2001 (as amended) Schedule 2, Part 3, Class 9

Works consisting of the provision of any store, barn, shed, glass-house or other structure, not being of a type specified in class 6, 7 or 8 of this Part of this Schedule, and having a gross floor space not exceeding 300 square metres.

1. *No such structure shall be used for any purpose other than the purpose of agriculture or forestry, but excluding the housing of animals or the storing of effluent.*
2. *The gross floor space of such structures together with any other such structures situated within the same farmyard complex or complex of such structures or within 100 metres of that complex shall not exceed 900 square metres gross floor space in aggregate.*
3. *No such structure shall be situated within 10 metres of any public road.*
4. *No such structure within 100 metres of any public road shall exceed 8 metres in height.*
5. *No such structure shall be situated within 100 metres of any house (other than the house of the person providing the structure) or other residential building or school, hospital, church or building used for public assembly, save with the consent in writing of the owner and, as may be appropriate, the occupier or person in charge thereof.*
6. *No unpainted metal sheeting shall be used for roofing or on the external finish of the structure.*

Under Article 9 (1) of the same Regulations, development to which Article 6 relates shall not be exempted development for the purposes of the Act:

- (a) *if the carrying out of such development would –*
 - (i) *contravene a condition attached to a permission under the Act or be inconsistent with any use specified in a permission under the Act*
 - (ii) *consist of or compromise the formation, laying out or material widening of a means of access to a public road the surfaced carriageway of which exceeds 4 metres in width,*
 - (iii) *endanger public safety by reason of traffic hazard or obstruction of road users,*

(iv) interfere with the character of a landscape, or a view or prospect of special amenity value or special interest, the preservation of which is an objective of a development plan for the area in which the development is proposed or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan.

(vii) consist of or comprise the excavation, alteration or demolition (other than peat extraction) of places, caves, sites, features or other objects of archaeological, geological, historical, scientific or ecological interest, the preservation, conservation or protection of which is an objective of a development plan or local area plan for the area in which the development is proposed or, pending the variation of a development plan or local area plan, or the making of a new development plan or local area plan, in the draft variation of the development plan or the local area plan or the draft development plan or draft local area plan,

(viiA) consist of or comprise the excavation, alteration or demolition of any archaeological monument included in the Record of Monuments and Places, pursuant to section 12(1) of the National Monuments (Amendment) Act 1994, save that this provision shall not apply to any excavation or any works, pursuant to and in accordance with a consent granted under section 14 or a licence granted under section 26 of the National Monuments Act 1930 (No. 2 of 1930) as amended,

(viiB) comprise development in relation to which a planning authority or An Bord Pleanála is the competent authority in relation to appropriate assessment and the development would require an appropriate assessment because it would be likely to have a significant effect on the integrity of a European site,

(viiC) consist of or comprise development which would be likely to have an adverse impact on an area designated as a natural heritage area by order made under section 18 of the Wildlife (Amendment) Act 2000."

(viii) consist of or comprise the extension, alteration, repair or renewal of an unauthorised structure or a structure the use of which is an unauthorised use,

(ix) consist of the demolition or such alteration of a building or other structure as would preclude or restrict the continuance of an existing use of a building or other structure where it is an objective of the planning authority to ensure that the building or other structure would remain available for such use and such objective has been specified in a development plan for the area or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan,

(x) consist of the fencing or enclosure of any land habitually open to or used by the public during the 10 years preceding such fencing or enclosure for recreational purposes or as a means of access to any seashore, mountain, lakeshore, riverbank or other place of natural beauty or recreational utility,

(xi) obstruct any public right of way,

(xii) further to the provisions of section 82 of the Act, consist of or comprise the carrying out of works to the exterior of a structure, where the structure concerned is located within an architectural conservation area or an area specified as an architectural conservation area in a development plan for the area or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft

development plan and the development would materially affect the character of the area.

Assessment

Basis of Referral

The applicant is seeking a Section 5 Declaration as to whether the construction of a lean-to extension onto an existing agricultural slatted shed at Knockanalban, Mullagh, County Clare is not development and is or is not exempted development.

Particulars of Proposal

The particulars of the proposal and site are set out below:

- | | |
|---------------------------|-----------------------------------|
| • Height | 5.2 metres |
| • Proposed Floor Area | 153.6 sqm (cumulative 266.9sqm) |
| • Distance from road | Greater than 10 metres |
| • Distance from dwellings | > 100 metres (beyond landholding) |

The materials to be stored in the dry shed have not been stated. As such, I will assess the development against both Class 8 and Class 9.

Planning and Development Regulations 2001 (as amended) Schedule 2, Part 3, Class 8

Works consisting of the provision of roofless cubicles, open loose yards, self feed silo or silage areas, feeding aprons, assembly yards, milking parlours or structures for the making or storage of silage or any other structures of a similar character or description, having an aggregate gross floor space not exceeding 200 square metres, and any ancillary provision for effluent storage.

- 1. No such structure shall be used for any purpose other than the purpose of agriculture.*

The structure is for agricultural storage.

- 2. The gross floor space of such structures together with any other such structures situated within the same farmyard complex or within 100 metres of that complex shall not exceed 300 square metres gross floor space in aggregate.*

The proposed shed would have a floor area of 153.6sqm. The floor area and use of the existing sheds within the farmyard have not been provided. Based on the Site Layout Plan the approximate floor area of the existing sheds is 115sqm. Therefore, irrespective of the type of agricultural use the 300sqm threshold is not exceeded.

- 3. Effluent storage facilities adequate to serve the structure having regard to its size, use and location shall be constructed in line with Department of Agriculture, Food and Rural Development and the Department of the Environment and Local*

Government requirements and shall have regard to the need to avoid water pollution.

A dry storage shed is proposed.

- 4. No such structure shall be situated, and no effluent from such structure shall be stored, within 10 metres of any public road.*

The set back from the road is in excess of 100 metres.

- 5. No such structure within 100 metres of any public road shall exceed 8 metres in height.*

The set back from the road is in excess of 100 metres.

- 6. No such structure shall be situated, and no effluent from such structure shall be stored, within 100 metres of any house (other than the house of the person providing the structure) or other residential building or school, hospital, church or building used for public assembly, save with the consent in writing of the owner and, as may be appropriate, the occupier or person in charge thereof.*

The adjacent house is derelict and is in the applicants ownership.

- 7. No unpainted metal sheeting shall be used for roofing or on the external finish of the structure.*

Standard agricultural sheeting is proposed.

Planning and Development Regulations 2001 (as amended) Schedule 2, Part 3, Class 9

Works consisting of the provision of any store, barn, shed, glass-house or other structure, not being of a type specified in class 6, 7 or 8 of this Part of this Schedule, and having a gross floor space not exceeding 300 square metres.

- 1. No such structure shall be used for any purpose other than the purpose of agriculture or forestry but excluding the housing of animals or the storing of effluent.*

The shed is to be used for agricultural purposes.

- 2. The gross floor space of such structures together with any other such structures situated within the same farmyard complex or complex of such structures or within 100 metres of that complex shall not exceed 900 square metres gross floor space in aggregate.*

The 900 sqm threshold is not exceeded.

- 3. No such structure shall be situated within 10 metres of any public road.*

The set back from the road is in excess of 100 metres.

4. *No such structure within 100 metres of any public road shall exceed 8 metres in height.*

The set back from the road is in excess of 100 metres.

5. *No such structure shall be situated within 100 metres of any house (other than the house of the person providing the structure) or other residential building or school, hospital, church or building used for public assembly, save with the consent in writing of the owner and, as may be appropriate, the occupier or person in charge thereof.*

The adjacent house is derelict and is in the applicant's ownership.

6. *No unpainted metal sheeting shall be used for roofing or on the external finish of the structure.*

Standard agricultural sheeting is proposed.

Article 9 of the Planning and Development Regulations 2001, as amended

Article 9 of the Planning and Development Regulations 2001, as amended outlines restrictions on exempted development, and these are assessed below:

- (i) *contravene a condition attached to a permission under the Act or be inconsistent with any use specified in a permission under the Act*

No onsite planning permission. It is proposed that the use will be agricultural.

- (ii) *consist of or compromise the formation, laying out or material widening of a means of access to a public road the surfaced carriageway of which exceeds 4 metres in width,*

No alterations to the existing access point are proposed.

- (iii) *endanger public safety by reason of traffic hazard or obstruction of road users,*

Not applicable in this instance. There is an existing agricultural access point serving the site.

- (iv) *interfere with the character of a landscape, or a view or prospect of special amenity value or special interest, the preservation of which is an objective of a development plan for the area in which the development is proposed or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan.*

This site is located within a Settled Landscape. Whilst elevated when viewed from the north the site occupies an elevated location along a local skyline. However it would be viewed in the context of the existing farmyard and would be viewed as ancillary to same. I consider that development proposed would not interfere with the character of the landscape or views in the area.

- (v) *consist of or comprise the carrying out under a public road of works other than a connection to a wired broadcast relay service, sewer, water main, gas main or electricity supply line or cable, or any works to which class 25, 26 or 31 (a) specified in column 1 of Part 1 of Schedule 2 applies,*

This is not applicable in this instance.

- (vi) *consist of or comprise the excavation, alteration or demolition (other than peat extraction) of places, caves, sites, features or other objects of archaeological, geological, historical, scientific or ecological interest, the preservation, conservation or protection of which is an objective of a development plan or local area plan for the area in which the development is proposed or, pending the variation of a development plan or local area plan, or the making of a new development plan or local area plan, in the draft variation of the development plan or the local area plan or the draft development plan or draft local area plan,*

This is not applicable in this instance.

- (vii)
 - a. *consist of or comprise the excavation, alteration or demolition of any archaeological monument included in the Record of Monuments and Places, pursuant to section 12(1) of the National Monuments (Amendment) Act 1994, save that this provision shall not apply to any excavation or any works, pursuant to and in accordance with a consent granted under section 14 or a licence granted under section 26 of the National Monuments Act 1930 (No. 2 of 1930) as amended,*

This is not applicable in this instance.

- b. *comprise development in relation to which a planning authority or An Bord Pleanála is the competent authority in relation to appropriate assessment and the development would require an appropriate assessment because it would be likely to have a significant effect on the integrity of a European site,*

The proposal site is located 2.7 km from the Mid-Clare Coast SPA and the Carrowmore Point to Spanish Point and Islands SAC. Having regard to the nature and scale of the proposed development and the absence of proximity or connectivity to a European Site, no Appropriate Assessment issues arise and I do not consider that the proposed development would be likely to have a significant effect individually or in combination

with other plans or projects, on a European Site. An appropriate assessment screening report and determination is attached to this report.

- a. *consist of or comprise development which would be likely to have an adverse impact on an area designated as a natural heritage area by order made under section 18 of the Wildlife (Amendment) Act 2000."*

The proposed development would not be likely to have an adverse impact on an area designated as a natural heritage area.

- (viii) *consist of or comprise the extension, alteration, repair or renewal of an unauthorised structure or a structure the use of which is an unauthorised use,*

This is not applicable in this instance.

- (ix) *consist of the demolition or such alteration of a building or other structure as would preclude or restrict the continuance of an existing use of a building or other structure where it is an objective of the planning authority to ensure that the building or other structure would remain available for such use and such objective has been specified in a development plan for the area or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan,*

This is not applicable in this instance.

- (x) *consist of the fencing or enclosure of any land habitually open to or used by the public during the 10 years preceding such fencing or enclosure for recreational purposes or as a means of access to any seashore, mountain, lakeshore, riverbank or other place of natural beauty or recreational utility,*

This is not applicable in this instance.

- (xi) *obstruct any public right of way,*

This is not applicable in this instance.

- (xii) *further to the provisions of section 82 of the Act, consist of or comprise the carrying out of works to the exterior of a structure, where the structure concerned is located within an architectural conservation area or an area specified as an architectural conservation area in a development plan for the area or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan and the development would materially affect the character of the area.*

This is not applicable in this instance.

Conclusion

Having regard to the above it is considered that the construction of a lean-to extension onto an existing agricultural slatted shed at Knockanalban, Mullagh, County Clare constitutes both 'works' and 'development'. However, regard has also been had to Class 8 and Class 9 of Part 3 of Schedule 2 of the Planning and Development Regulations 2001, as amended and the proposed shed is development and is exempted development.

Recommendation

The following question has been referred to the Planning Authority:

Whether the construction of a lean-to extension onto an existing agricultural slatted shed at Knockanalban, Mullagh, County Clare is or is not development and is or is not exempted development.

The Planning Authority in considering this referral had regard to:

- (a) Sections 2, 3 and 4 of the Planning and Development Act, 2000, as amended,
- (b) Articles 6 and 9 of the Planning and Development Regulations 2001, as amended
- (c) Class 8 and Class 9 of Part 3 of Schedule 2 of the Planning and Development Regulations 2001, as amended.
- (d) The works as indicated in submitted documents from the referrer on 24th February 2022.

And whereas Clare County Council (Planning Authority) has concluded:

- (a) the development of the construction of a lean-to extension onto an existing agricultural slatted shed at Knockanalban, Mullagh, County Clare, constitutes "works" which come within the scope of section 2 (1) of the Planning and Development Act 2000, as amended
- (b) the said works constitute "development" which comes within the scope of section 3 (1) of the Planning and Development Act 2000, as amended
- (c) the said development of the construction of a lean-to extension onto an existing agricultural slatted shed at Knockanalban, Mullagh, County Clare, is exempted development having regard to Class 8 and Class 9 of Schedule 2, Part 3 of the Planning and Development Regulations 2001, as amended.

Now therefore Clare County Council (Planning Authority) hereby decides that the construction of a lean-to extension onto an existing agricultural slatted shed at Knockanalban, Mullagh, County Clare is development and is exempted development.

This section identifies the European Sites within the likely zone of impact of the plan or project. For plans an initial 15km zone of influence (NPWS-DAHG)¹ is recommended. For projects, the

¹ European Sites that are more than 15km from the proposal may have to be considered. For example in the case of sites with water dependent habitats or species and where a proposal

distance could be much less than 15km, and in some cases less than 100m, but this must be evaluated on a case-by-case basis with reference to the nature, size and location of the project, and the sensitivities of the ecological receptors, and the potential for in combination effects. Qualifying Interests/Special conservation Interests for each site and the distance relevant to the proposal are listed (Table 2 (a)).

Conclusion of assessment (a, b, c or d)	
(a) The proposed development is directly connected with or necessary to the nature conservation management of a European Site(s) ³	No
(b) There is no potential for significant effects to European Sites ³	Yes
(c) The potential for significant effects to European Site(s) cannot be ruled out ⁴	No

³ Appropriate Assessment is not required and therefore Planning permission may be granted at this stage subject to all other planning considerations. However, no changes may be made to the proposed development after this conclusion has been reached as this would invalidate the findings of the screening exercise.

⁴ In accordance with S177U of the Planning and Development (Amendment) Act 2010, the applicant should be requested to submit an 'Appropriate Assessment Screening Matrix' completed by a suitably qualified ecologist, by way of Further Information. Following receipt of this information a new Appropriate Screening Report should be completed. The requested 'Appropriate Assessment Screening Matrix' should be in accordance with the template outlined in Annex 2, Figure 1 of the EU (2001) guidance document 'Assessment of plans and projects significantly affecting European Sites – Methodological guidance on the provisions of Article 6(3) and (4) of the Habitats Directive 92/43/EEC. This guidance document is available from http://ec.europa.eu/environment/nature/natura2000/management/docs/art6/natura_2000_assess_en.pdf

Alternatively, where other planning concerns arise the proposal could be refused planning permission.

(d) Significant effects to European sites are certain or likely or where potential for significant effects to European sites remains following receipt of Further Information requested under S177U of the Planning and Development (Amendment) Act 2010⁵	No
Completed By	John O'Sullivan
Date	07 th December 2022

⁵ The proposed development must either by refused planning permission or alternatively an 'Appropriate Assessment' (AA) should be carried out by the Planning Authority. In order to facilitate the preparation of an AA the applicant should be requested to submit a Natura Impact Statement (NIS) in accordance with S177 (T) of the Planning and Development (Amendment) Act 2010. However, in the case of an application to retain unauthorised development of land and where the authority decides that an 'appropriate assessment' should have been carried out prior to the commencement of development, the application is required to be invalidated by the Planning Authority as per S34 (12) of the Planning and Development (Amendment) Act 2010 and accordingly an NIS should not be requested in such instances.
