Background to Referral

This Referral under Section 5(1) of the Planning and Development Act 2000 (as amended) has been made by National Broadband Ireland. The lands which are the subject of this referral are owned by St Josephs GAA Club.

The applicant is seeking a Section 5 Declaration as to whether the construction of a fibre broad band cabin and ancillary development at St Joseph's GAA grounds, Miltown Malbay is or is not development and is or is not exempted development.

Based on the accompanying details the proposal will involve:

- The installation of a 3m³ cabin (painted green) on 4no. 750m x 750m concrete plinths located towards the south eastern end of the GAA grounds within a disused hard stand area behind a c. 2.5m high wall along the N67 Flag road.
- Proposed wire mesh panel fence to form 6m by 6m by 1.2m high compound- on three sites with an existing concrete block wall along the N67 to form one side and retention of low existing retained wall along the western side with 1.2m mesh fence on top.
- Proposed steel mesh gate 1m wide for ass to the NBI compound.
- Ducting, cabling, earth pits, cabinets, chambers, mini pillar and all ancillary development thereto.
- The existing entrance gate to the GAA grounds is to be used for access to the proposed compound.

Statutory Provisions

Planning and Development Act, 2000 (as amended)

In order to assess this proposal, regard has to be had to the *Planning and Development Act 2000, as amended*.

S.3.(1) In this Act, "development" means, except where the context otherwise requires, the carrying out of any works on, in, over or under land or the making of any material change in the use of any structures or other land.

'Works' are defined in Section 2 of the *Planning and Development Act 2000, as amended* as follows:

"works" includes any act or operation of construction, excavation, demolition, extension, alteration, repair or renewal and, in relation to a protected structure or proposed protected structure, includes any act or operation involving the application or removal of plaster, paint, wallpaper, tiles or other material to or from the surfaces of the interior or exterior of a structure.

Planning and Development Act, 2000 (as amended) Section 2(1)

"statutory undertaker" means a person, for the time being, authorised by or under any enactment or instrument under an enactment to—

- (a) construct or operate a railway, canal, inland navigation, dock, harbour or airport,
- (b) provide, or carry out works for the provision of, gas, electricity or telecommunications services, or

- (c) provide services connected with, or carry out works for the purposes of the carrying on of the activities of any public undertaking;

Planning & Development Regulations, 2001, as amended

Article 6 refers to Exempted Development and states that subject to Article 9, development of a class specified in column 1 of Part 1 of Schedule 2 shall be exempted development for the purposes of the Act, provided that such development complies with the conditions and limitations specified in column 2 of the said Part 1 opposite the mention of that class in the said column 1.

Part 1 Schedule 2 of Planning and Development Regulations 2001 (as amended).

Class 31 (a)

The carrying out by a statutory undertaker authorised to provide a telecommunications service or development consisting of the provision of—

(a) underground telecommunications structures or other underground telecommunications works (including the laying of mains and cables and the installation underground of any apparatus or equipment).

No conditions or limitations apply to class 31 (a)

Class 31(e)

The carrying out by a statutory undertaker authorised to provide telecommunications services of development consisting of the provision of: -

- permanent telecommunications exchange and radio station containers, including containers for electronic equipment required for transmitting, receiving and processing telecoms data for both wireless or wired networks, where:
 - The equipment housed in the container shall be used exclusively for the purposes of concentrating and re-routing calls or for transmitting, receiving and processing telecoms data for both wireless or wired networks and the container shall not have attached to it or within it, whether visible or not, any antennae for the direct transmission or reception of mobile telephony or other telecommunications signals in such a way that the container would act as an antennae support structure.
 - No such container shall exceed 10 metres in length, 3 metres in width or 3 metres in height.
 - No such container shall be situated within 10 metres of the curtilage of a house save with the consent in writing of the owner or occupier thereof, or within 10 metres of the window of a workroom of any other structure.

- The field strength of the non-ionising radiation emissions from the radio station container shall not exceed the limits specified by the Director of Telecommunications Regulation.

Class 31 (F) Part 1 Schedule 2 of Planning and Development Regulations 2001 (as amended).

The carrying out by a statutory undertaker authorised to provide a telecommunications service of 411 development consisting of the provision of— (a) underground telecommunications structures or other underground telecommunications works (including the laying of mains and cables and the installation underground of any apparatus or equipment),

(f) cabinets forming part of a telecommunications system,

Conditions and limitations

The volume above the ground-level of any such cabinet shall not exceed 2 cubic metres measured externally.

Class 11 Part 1 Schedule 2 of Planning and Development Regulations 2001 (as amended).

The construction, erection, lowering, repair or replacement, other than within or bounding the curtilage of a house, of – (a) any fence (not being a hoarding or sheet metal fence), or (b) any wall of brick, stone, blocks with decorative finish, other concrete blocks or mass concrete

Conditions and limitations

The height of any new structure shall not exceed 1.2 metres or the height of the structure being replaced, whichever is the greater, and in any event shall not exceed 2 metres. 2. Every wall, other than a dry or natural stone wall, constructed or erected bounding a road shall be capped and the face of any wall of concrete or concrete blocks (other than blocks of a decorative finish) which will be visible from any road, path or public area, including a public open space, shall be rendered or plastered.

Under Article 9 (1) of the same Regulations, *development to which Article 6 relates shall not be exempted development for the purposes of the Act:*

(a) *if the carrying out of such development would –*

(i) contravene a condition attached to a permission under the Act or be inconsistent with any use specified in a permission under the Act

(ii) consist of or compromise the formation, laying out or material widening of a means of access to a public road the surfaced carriageway of which exceeds 4 metres in width,

(iii) endanger public safety by reason of traffic hazard or obstruction of road users,

(iv) except in the case of a porch to which class 7 specified in column 1 of Part 1 of Schedule 2 applies and which complies with the conditions and limitations specified in column 2 of the said Part 1 opposite the mention of that class in the said column 1, comprise the construction, erection, extension or renewal of a building on any street so as to bring forward the building, or any part of the building, beyond the front wall of the building on either side thereof or beyond a line determined as the building line in a development plan for the area or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan,

(v) consist of or comprise the carrying out under a public road of works other than a connection to a wired broadcast relay service, sewer, water main, gas main or electricity supply line or cable, or any works to which class 25, 26 or 31 (a) specified in column 1 of Part 1 of Schedule 2 applies,

(vi) interfere with the character of a landscape, or a view or prospect of special amenity value or special interest, the preservation of which is an objective of a development plan for the area in which the development is proposed or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan.

(vii) consist of or comprise the excavation, alteration or demolition (other than peat extraction) of places, caves, sites, features or other objects of archaeological, geological, historical, scientific or ecological interest, the preservation, conservation or protection of which is an objective of a development plan or local area plan for the area in which the development is proposed or, pending the variation of a development plan or local area plan, or the making of a new development plan or local area plan, in the draft variation of the development plan or the local area plan or the draft development plan or draft local area plan,

(viiA) consist of or comprise the excavation, alteration or demolition of any archaeological monument included in the Record of Monuments and Places, pursuant to section 12(1) of the National Monuments (Amendment) Act 1994, save that this provision shall not apply to any excavation or any works, pursuant to and in accordance with a consent granted under section 14 or a licence granted under section 26 of the National Monuments Act 1930 (No. 2 of 1930) as amended,

(viiB) comprise development in relation to which a planning authority or An Bord Pleanála is the competent authority in relation to appropriate assessment and the development would require an appropriate assessment because it would be likely to have a significant effect on the integrity of a European site,

(viiC) consist of or comprise development which would be likely to have an adverse impact on an area designated as a natural heritage area by order made under section 18 of the Wildlife (Amendment) Act 2000."

(viii) consist of or comprise the extension, alteration, repair or renewal of an unauthorised structure or a structure the use of which is an unauthorised use,

(ix) consist of the demolition or such alteration of a building or other structure as would preclude or restrict the continuance of an existing use of a building or other structure where it is an objective of the planning authority to ensure that the building or other structure would remain available for such use and such objective has been specified in a development plan for the area or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan,

(x) consist of the fencing or enclosure of any land habitually open to or used by the public during the 10 years preceding such fencing or enclosure for recreational purposes or as a means of access to any seashore, mountain, lakeshore, riverbank or other place of natural beauty or recreational utility,

(xi) obstruct any public right of way,

(xii) further to the provisions of section 82 of the Act, consist of or comprise the carrying out of works to the exterior of a structure, where the structure concerned is located within an architectural conservation area or an area specified as an architectural conservation area in a development plan for the area or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan and the development would materially affect the character of the area.

Assessment

Basis of Referral

The applicant is seeking a Section 5 Declaration as to whether the construction of a fibre broadband cabin and ancillary development at St Joseph's GAA grounds, Miltown Malbay Co. Clare is or is not development and is or is not exempted development.

Planning and Development Regulations 2001 (as amended) Schedule 2, Part 1, Class 31(e)

This section of the Regulations provide exemptions to Statutory Undertakers with regard to works related telecommunications structures. The Act defines a statutory undertaker as:

“statutory undertaker” means a person, for the time being, authorised by or under any enactment or instrument under an enactment to—

- (a) construct or operate a railway, canal, inland navigation, dock, harbour or airport,
- (b) provide, or carry out works for the provision of, gas, electricity or telecommunications services, or
- (c) provide services connected with, or carry out works for the purposes of the carrying on of the activities of any public undertaking;

Based on this definition, I am satisfied that the applicant meets the criteria of a ‘statutory undertaker’

Planning and Development Regulations 2001 (as amended) Schedule 2, Part 2, Class 31(e)

Permanent telecommunications exchange and radio station containers, including containers for electronic equipment required for transmitting, receiving and processing telecoms data for both wireless or wired networks, where:

- *The equipment housed in the container shall be used exclusively for the purposes of concentrating and re-routing calls or for transmitting, receiving and processing telecoms data for both wireless or wired networks and the container shall not have attached to it or within it, whether visible or not, any antennae for the direct transmission or reception of mobile telephony or other telecommunications signals in such a way that the container would act as an antennae support structure.*

The applicant has stated that the equipment housed in the proposed structure will be used exclusively for the purposes of transmitting, receiving and processing of telecoms data for a wired network. There will be no antennas on or within the proposed cabin

- *No such container shall exceed 10 metres in length, 3 metres in width or 3 metres in height.*

The proposed cabin does not exceed these limitations.

- *No such container shall be situated within 10 metres of the curtilage of a house save with the consent in writing of the owner or occupier thereof, or within 10 metres of the window of a workroom of any other structure.*

The proposed development is greater than 10m from the curtilage of a house or the window of a workroom of any other structure.

- *The field strength of the non-ionising radiation emissions from the radio station container shall not exceed the limits specified by the Director of Telecommunications Regulation.*

The applicant states that the development will not exceed this limitation.

Class 11 Part 1 Schedule 2 of Planning and Development Regulations 2001 (as amended).

The proposed mesh panel on all four sides is 1.2 in height .

Class 31 (F) Part 1 Schedule 2 of Planning and Development Regulations 2001 (as amended).

This class does not apply because it relates to cabinets other than those specified at 31 (e) which are permitted to be to 10m in length, 3m in width and 3m in height .

Class 31 (a) Part 1 Schedule 2 of Planning and Development Regulations 2001 (as amended).

The installation of ducting, cabling and earth pits come within this scope.

Article 9 of the Planning and Development Regulations 2001, as amended outlines restrictions on exempted development, and these are assessed below:

- (i) *contravene a condition attached to a permission under the Act or be inconsistent with any use specified in a permission under the Act*

No recent planning application of the proposal site.

- (ii) *consist of or compromise the formation, laying out or material widening of a means of access to a public road the surfaced carriageway of which exceeds 4 metres in width,*

No .

- (iii) *endanger public safety by reason of traffic hazard or obstruction of road users,*

The proposal will not result in the creation of a traffic hazard or obstruct road users.

- (iv) *except in the case of a porch to which class 7 specified in column 1 of Part 1 of Schedule 2 applies and which complies with the conditions and limitations specified in column 2 of the said Part 1 opposite the mention of that class in the said column 1, comprise the construction, erection, extension or renewal of a building on any street so as to bring forward the building, or any part of the building, beyond the front wall of the building on either side thereof or beyond a line determined as the building line in a development plan for the area or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan,*

Not applicable to this proposal.

- (v) *consist of or comprise the carrying out under a public road of works other than a connection to a wired broadcast relay service, sewer, water main, gas main or electricity supply line or cable, or any works to which class 25, 26 or 31 (a) specified in column 1 of Part 1 of Schedule 2 applies,*

Not applicable to this proposal.

- (vi) *interfere with the character of a landscape, or a view or prospect of special amenity value or special interest, the preservation of which is an objective of a development plan for the area in which the development is proposed or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan.*

N/A. (It is noted that the structure will be behind a solid block wall of 2.5m high and only the top 50cm of the structure will be visible for the Flag Rd (scenic route). Such level of visibility is not considered to interfere with the character of the landscape.

- (vii) *consist of or comprise the excavation, alteration or demolition (other than peat extraction) of places, caves, sites, features or other objects of archaeological, geological, historical, scientific or ecological interest, the preservation, conservation or protection of which is an objective of a development plan or local area plan for the area in which the development is proposed or, pending the variation of a development plan or local area plan, or the making of a new development plan or local area plan, in the draft variation of the development plan or the local area plan or the draft development plan or draft local area plan,*

Not applicable to this proposal

- (viiA) *consist of or comprise the excavation, alteration or demolition of any archaeological monument included in the Record of Monuments and Places, pursuant to section 12(1) of the National Monuments (Amendment) Act 1994, save that this provision shall not apply to any excavation or any works, pursuant to and in accordance with a consent granted under section 14 or a licence granted under section 26 of the National Monuments Act 1930 (No. 2 of 1930) as amended.*

Not applicable

(viiB) *comprise development in relation to which a planning authority or An Bord Pleanála is the competent authority in relation to appropriate assessment and the development would require an appropriate assessment because it would be likely to have a significant effect on the integrity of a European site,*

The proposed development is not likely to have a significant effect on the integrity of a European Site. An appropriate assessment screening report and determination is attached to this report.

(viiC) *consist of or comprise development which would be likely to have an adverse impact on an area designated as a natural heritage area by order made under section 18 of the Wildlife (Amendment) Act 2000."*

Not applicable in this instance

(viii) *consist of or comprise the extension, alteration, repair or renewal of an unauthorised structure or a structure the use of which is an unauthorised use,*

Not applicable in this instance

(ix) *consist of the demolition or such alteration of a building or other structure as would preclude or restrict the continuance of an existing use of a building or other structure*

where it is an objective of the planning authority to ensure that the building or other structure would remain available for such use and such objective has been specified in a development plan for the area or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan,

Not applicable in this instance

(x) consist of the fencing or enclosure of any land habitually open to or used by the public during the 10 years preceding such fencing or enclosure for recreational purposes or as a means of access to any seashore, mountain, lakeshore, riverbank or other place of natural beauty or recreational utility,

Not applicable in this instance

(xi) obstruct any public right of way,

The development will not obstruct a right of way

(xii) further to the provisions of section 82 of the Act, consist of or comprise the carrying out of works to the exterior of a structure, where the structure concerned is located within an architectural conservation area or an area specified as an architectural conservation area in a development plan for the area or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan and the development would materially affect the character of the area.

The proposal site is not located in an Architectural Conservation Area

Recommendation

The following questions have been referred to the Planning Authority:

Whether the construction of a fibre broad band cabin and ancillary development at St Joseph's GAA grounds, Miltown Malbay Co. Clare (per accompanying details) is or is not development and is or is not exempted development.

The Planning Authority in considering this referral had regard to:

- (a) Sections 2, 3 and 4 of the Planning and Development Act, 2000, as amended;
- (b) Articles 6 and 9 of the Planning and Development Regulations 2001, as amended;
- (c) Class 31 (a), and (e), and Class 11 of Part 1 of Schedule 2 of the Planning and Development Regulations 2001, as amended;
- (d) The works as indicated in submitted documents from the referrer.

And whereas Clare County Council (Planning Authority) has concluded:

- (a) The installation of the proposed "works" which come within the scope of section 2 (1) of the Planning and Development Act 2000, as amended;
- (b) The said works constitute "development" which comes within the scope of section 3(1) of the Planning and Development Act 2000, as amended;
- (c) the said construction of a fibre broad band cabin and ancillary development at St Joseph's GAA grounds, Miltown Malbay is exempted development by virtue of Schedule 2, Part 1, Class 31 (a),(e) and Class 11 of the Planning and Development Regulations 2000 (as amended)

Now therefore Clare County Council (Planning Authority), hereby decides that:

- (i) the said the construction of a fibre broad band cabin and ancillary development at St Joseph's GAA grounds, Miltown Malbay is development and is exempted development.

Dear Sir or Madam,

APPLICATION FOR DECLARATION OF EXEMPT DEVELOPMENT – NATIONAL BROADBAND IRELAND

APPLICATION BY THE STATUTORY UNDERTAKER OF A PROPOSED DEVELOPMENT IN ACCORDANCE WITH THE PLANNING AND DEVELOPMENT REGULATIONS 2001 (AS AMENDED) TO UTILISE EXEMPT DEVELOPMENT RIGHTS.

INSTALLATION AT: ST. JOSEPHS GAA, POULAWILLIN, SPANISH POINT ROAD, MILLTOWN MALBAY, COUNTY CLARE (ITM E: 505242, N: 678869).

We write in connection with a proposal to carry out exempt development by NBI Infrastructure DAC T/A National Broadband Ireland (NBI) at the above-named location, for use by NBI. This letter forms part of the request for a Declaration of Exempt Development by NBI Infrastructure DAC T/A National Broadband Ireland (NBI) to utilise exempt development rights to install electronic communications apparatus at this site, which has been chosen as a suitable network point in the design of its fibre broadband network for the area.

National Broadband Ireland

The National Broadband Plan (NBP) is the largest ever telecommunications project undertaken by the Irish State. It aims to radically transform the country's broadband landscape through the delivery of quality, affordable high-speed broadband to all parts of Ireland where such services are not available commercially.

The NBP will ensure that all people and businesses have access to high-speed broadband, no matter where they live or work. Once completed, all parts of Ireland will have access to a modern and reliable broadband network, capable of supporting the communications, information, education and entertainment requirements of current and future generations. It will make its services available to 23% of the population in about approximately 544,000 homes, farms, schools and businesses.

BUILDING A LIMITLESS IRELAND

Proposal

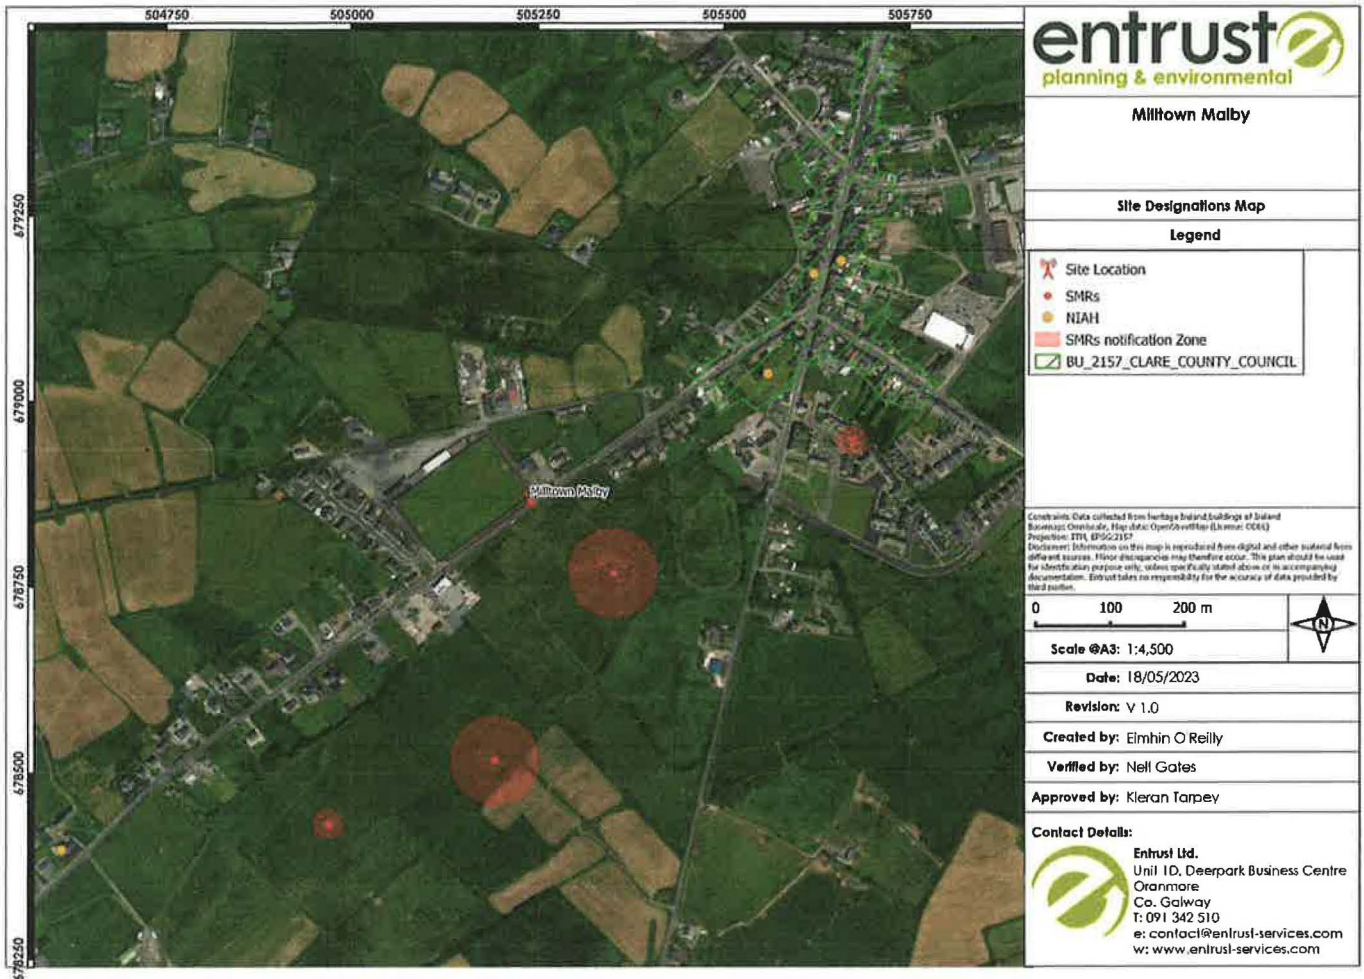

The proposal is to install electronic communications apparatus/development on behalf of National Broadband Ireland as follows:

Description of Development:

- A cabin to be painted green to be located towards the south-eastern end of the GAA Grounds within a disused hard stand area behind a c. 2.5m high wall along the N67 / Flag Road;
- The cabin measures 3m (Length) x 3m (Width) x 3m (Height) on 4 no. 750 x 750mm concrete plinths not exceeding ground level;
- Proposed wire mesh panel fence to form 6m x 6m x 1.2 m high compound – on three sides, with existing concrete block wall along N67 to form one side and retention of low existing retained wall along western side with 1.2m mesh fence on top;
- Proposed steel mesh gate 1m wide for access to NBI compound;
- Ducting, cabling, earth pits, cabinets, chambers, mini pillar and all ancillary development thereto.

Planning Designations:

The proposal will not have any impact whatsoever on any heritage, ecological or landscape designations as shown in the map overleaf as it is not within or close to any designated areas.

Exempt Development

Please accept this submission as a formal application for a Declaration for Exempt Development under Section 5 (1) of the Planning and Development Act 2000 (as amended).

It is considered that this proposal is exempt development in accordance with the Planning & Development Regulations 2001 (as amended 2001-2020). The tables below demonstrates the proposed development's compliance with SI No. 600, 2001, Schedule 2, Part 1, Class 31 (E) for development consisting of permanent telecommunications exchange and radio station containers, including containers for electronic equipment required for transmitting, receiving and processing telecoms data for both wireless or wired network.
