Assessment

Basis of Referral

The applicant is seeking a Section 5 Declaration as to whether the construction of a shed at Kilestry, Killaloe, Co. Clare is or is not development and is or is not exempted development.

Particulars of Proposal

The particulars of the proposal and site are set out below:

- Height 2.9m. (stated as 9ft6" on the referral form)
- Proposed Floor Area 29.7m² (stated as 20ft x 16ft on referral form)
- Intended use the applicant has stated that the shed will be used for storage of mountain bikes and ancillary equipment.

Having regard to Section 2(1) of the Planning and Development Act 2001 (as amended), I consider that the proposed developments, come within the scope of "works" and hence constitutes development in accordance with Section 3(1) of the Planning and Development Act 2001 (as amended).

The referral relates to the construction of shed in the curtilage of a house. The proposed development is therefore assessed in the context of Schedule 2, Part 1, Class 3 of the Planning and Development Regulations.

Planning and Development Regulations 2001 (as amended) Schedule 2, Part 1, Class 3

The construction, erection or placing within the curtilage of a house of any tent, awning, shade or other object, greenhouse, garage, store, shed or other similar structure.

1. No such structure shall be constructed, erected or placed forward of the front wall of a house.

The indicted location of the shed is to the rear of the existing dwelling.

2. The total area of such structures constructed, erected or placed within the curtilage of a house shall not, taken together with any other such structures previously constructed, erected or placed within the said curtilage, exceed 25 square metres.

The floor area of the proposed shed is 29m². This limitation of the exemption is exceeded.

3. The construction, erection or placing within the curtilage of a house of any such structure shall not reduce the amount of private open space reserved exclusively for the use of the occupants of the house to the rear or to the side of the house to less than 25 square metres.

The remaining private open space will be greater than 25m².

4. The external finishes of any garage or other structure constructed, erected or placed to the side of a house, and the roof covering where any such structure has a tiled or slated roof, shall conform with those of the house.

The shed will be located to the rear of the dwelling.

5. The height of any such structure shall not exceed, in the case of a building with a tiled or slated pitched roof, 4 metres or, in any other case, 3 metres.

This limitation of the exemption is not exceeded.

6. The structure shall not be used for human habitation or for the keeping of pigs, poultry, pigeons, ponies or horses, or for any other purpose other than a purpose incidental to the enjoyment of the house as such.

The shed will be used for the storage of mountain bikes and equipment used by the applicant's business – Britton Adventures Ltd. It is submitted that the shed will be used for storage only and will not result in business activities on the site. Notwithstanding this, the shed is associated with business use. This is not a purpose *incidental to the enjoyment of the dwelling*.

The proposal does not comply with this limitation of the exemption.

Article 9(1)(c) of the Planning and Development Regulations 2001, as amended outlines restrictions on exempted development, and these are assessed below:

- (i) *contravene a condition attached to a permission under the Act or be inconsistent with any use specified in a permission under the Act*

The proposal does not contravene a condition of any previous grant of permission on this site.

- (ii) *consist of or compromise the formation, laying out or material widening of a means of access to a public road the surfaced carriageway of which exceeds 4 metres in width,*

Not applicable to the current proposal.

- (iii) *endanger public safety by reason of traffic hazard or obstruction of road users,*

The proposed development will not create a traffic hazard in the area.

- (iv) *interfere with the character of a landscape, or a view or prospect of special amenity value or special interest, the preservation of which is an objective of a development plan for the area in which the development is proposed or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan.*

Not applicable to the proposal site.

- (v) *consist of or comprise the carrying out under a public road of works other than a connection to a wired broadcast relay service, sewer, water main, gas main or electricity supply line or cable, or any works to which class 25, 26 or 31 (a) specified in column 1 of Part 1 of Schedule 2 applies,*

Not applicable in this instance.

- (vi) *consist of or comprise the excavation, alteration or demolition (other than peat extraction) of places, caves, sites, features or other objects of archaeological, geological, historical, scientific or ecological interest, the preservation, conservation or protection of which is an objective of a development plan or local area plan for the area in which the development is proposed or, pending the variation of a development plan or local area plan, or the making of a new development plan or local area plan, in the draft variation of the development plan or the local area plan or the draft development plan or draft local area plan,*

Not applicable in this instance

(vii)

- a. *consist of or comprise the excavation, alteration or demolition of any archaeological monument included in the Record of Monuments and Places, pursuant to section 12(1) of the National Monuments (Amendment) Act 1994, save that this provision shall not apply to any excavation or any works, pursuant to and in accordance with a consent granted under section 14 or a licence granted under section 26 of the National Monuments Act 1930 (No. 2 of 1930) as amended,*

Not applicable in this instance.

- b. *comprise development in relation to which a planning authority or An Bord Pleanála is the competent authority in relation to appropriate assessment and the development would require an appropriate assessment because it would be likely to have a significant effect on the integrity of a European site,*

Having regard to the location of the proposed development, the nature of the proposed shed (prefabricated – manufactured off-site), and the small scale of same (29m²), no Appropriate Assessment issues arise and I do not

consider that the proposed development would be likely to have a significant effect individually or in combination with other plans or projects, on a European Site.

Appropriate assessment is not therefore required.

- c. *consist of or comprise development which would be likely to have an adverse impact on an area designated as a natural heritage area by order made under section 18 of the Wildlife (Amendment) Act 2000."*

This is not applicable in this instance.

- (viii) *consist of or comprise the extension, alteration, repair or renewal of an unauthorised structure or a structure the use of which is an unauthorised use,*

Not applicable in this instance.

- (ix) *consist of the demolition or such alteration of a building or other structure as would preclude or restrict the continuance of an existing use of a building or other structure where it is an objective of the planning authority to ensure that the building or other structure would remain available for such use and such objective has been specified in a development plan for the area or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan,*

This is not applicable in this instance.

- (x) *consist of the fencing or enclosure of any land habitually open to or used by the public during the 10 years preceding such fencing or enclosure for recreational purposes or as a means of access to any seashore, mountain, lakeshore, riverbank or other place of natural beauty or recreational utility,*

This is not applicable in this instance.

- (xi) *obstruct any public right of way,*

This is not applicable in this instance.

- (xii) *further to the provisions of section 82 of the Act, consist of or comprise the carrying out of works to the exterior of a structure, where the structure concerned is located within an architectural conservation area or an area specified as an architectural conservation area in a development plan for the area or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan and the development would materially affect the character of the area.*

This is not applicable in this instance.
