				<p>Construction of one permanent 38 kV electrical on-site substation with one control building with welfare facilities, all associated electrical switchgear, security fencing, underground cabling, drainage infrastructure, and all ancillary works. • All associated internal underground electrical and communications cabling connecting the wind turbine to the on-site Substation. • Upgrade of existing tracks, roads and provision of new site access roads to facilitate construction and operation of the turbine. • Two borrow pits. • One peat repository area for peat and spoil management. • Construction of one temporary construction compound. • Development of internal site drainage. • Permanent and Temporary tree felling to accommodate the construction and operation of the turbine. • Signages. • All associated site development works. This application is seeking a 10-year planning permission, together with a 35-year operational life for the wind turbine from the date of its commissioning. The development is covered by the provisions of the Renewable Energy Directive III (Directive 2023/2413) Yes. The planning application is subject to section 34D of the Planning and Development Act, 2000, as amended. When a notice is issued in accordance with section 34D(b), the provisions of article 26A of the Planning and Development Regulations 2001 to 2025 shall apply. An Environmental Impact Assessment Report (EIAR) and Screening for Appropriate Assessment have been prepared in respect of the planning application and will be submitted to the Planning Authority with the application</p> <p>Slievenalicka Illaunbaun, Drumbaun</p>
