MAIN POINTS

Minutes of meeting held on 5th April 2017 were proposed by Alan Foudy seconded by Sheila McTigue

1. Matters Arising from Minutes

John Leahy informed the meeting that the design for the capping of Phase 3 had been submitted to the EPA for approval. Further engagement with the EPA will be required.

Clare McGrath informed the meeting that the Tranche 6, community fund for groups, had been approved by Clare Co Co. Four Local Groups had funding approved. Clare Co Co also approved the balance of funds to be distributed to local residents, as a small grant scheme for environmental projects. Local residents have been informed and expressions of interest have been requested.

Perry Long suggested that the closing date for applications for this grant scheme was very early, as some residents had landscaping projects planned, and the closing date of Mid April was out of season for this type of work.

Clare will write to residents, informing them of an extension to the work completion deadline.

2. Odour Management

There were no issues reported.

3. Correspondence

The list of correspondence between CCC & the EPA was circulated.
The summary of the leachate removed was circulated.

4. Any other business

John Leahy informed the meeting of a recent EPA Audit at the CWMF. This audit was compliant.

A Hazardous Waste collection day was held at the facility. This was well attended with many people attending.

5. Date of next meeting

Mid April 2018.
